

Brand Identity Guidelines

arceon.studio

We don’t just design. We solve.

Design is not decoration.

It is communication. It is structure.

It is problem-solving.

Design with purpose. Always.

Why Arceon Exists ?

Every brand has a problem.

Most never get it solved properly.

Arceon was built to fix that.

A studio that thinks before it designs.

That asks why before it asks how.

Built with purpose. Driven by process.

04 — About Arceon

We Are a Digital Experience Design Studio.

Not a freelancer. Not an agency.

A studio with a process and a standard.

UI/UX. Visual Content. AI-driven workflow.

Built for brands that take quality seriously.

Professional work. Real results.

Vision

To become a trusted digital design studio.

Mission

To solve design and UX problems through professional workflow and technology.

Goal

To help brands grow digitally and look professional.

Clarity in purpose. Consistency in execution.

What We Believe.

Design should solve problems.

Not just fill space.

Process matters as much as outcome.

How you work defines what you deliver.

Honesty builds better relationships

than perfect presentations.

Quality is not negotiable.

We design with reason. Every time.

We Think Before We Design.

Problem first. Design second.

Ask why before asking how.

Process is not a formality.

It is how good work happens.

Details are not extra.

They are the work.

Mindset drives outcome.

How Arceon Shows Up.

Professional

We show up prepared.
Every time.

Problem-Solver

We find solutions.

Not excuses.

Detail-Oriented

Nothing leaves without being checked.

Honest

We say what we mean.
No overselling.

Reliable

We deliver what we promise.

Calm

No panic. No drama.
Just process.

The brand that always shows up right.

Where We Stand.

Arceon is not the cheapest option.

We are the right option.

We sit between a freelancer and a large agency.

More structured than a freelancer.

More personal than an agency.

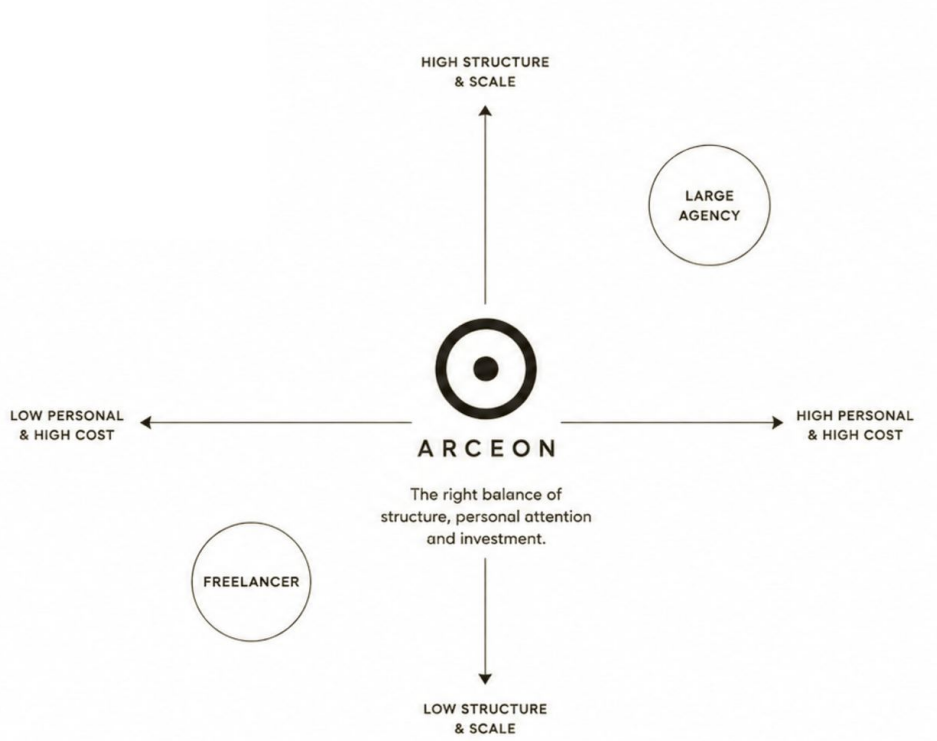

We are for clients who understand

that good work has a price.

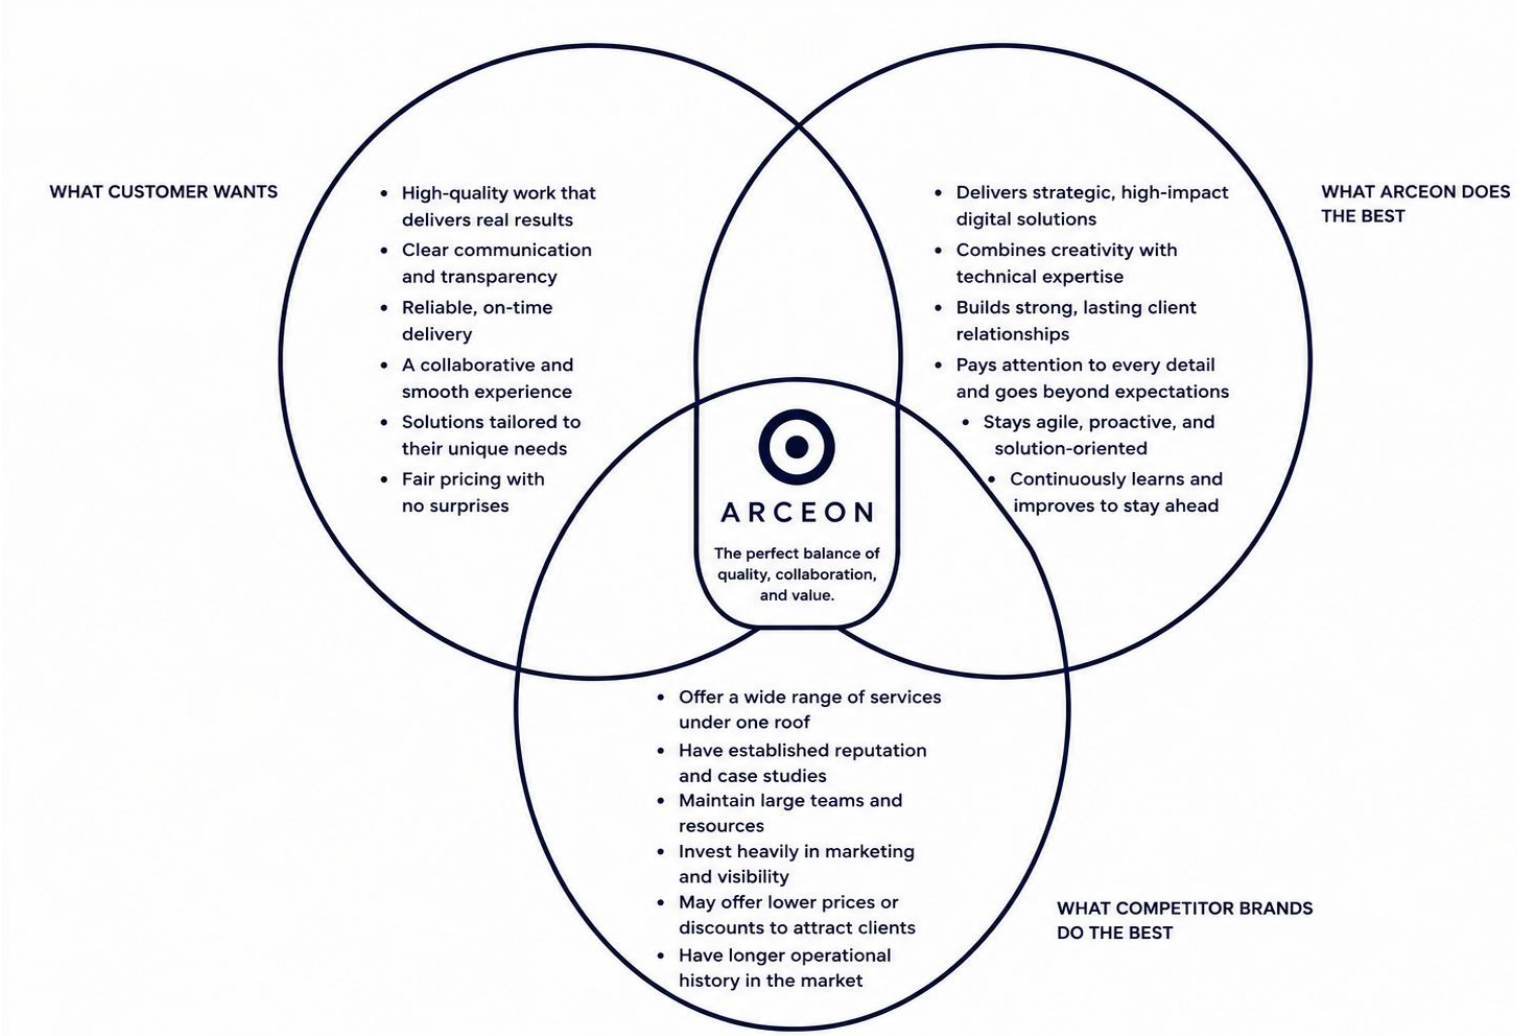

And that price is worth it.

Quality positioned. Clearly defined.

Where Arceon Sits.

High quality. Right price. Clear position.

WHAT CUSTOMER WANTS
High-quality work that delivers real results
Clear communication and transparency
Reliable, on-time delivery
A collaborative and smooth experience
Solutions tailored to their unique needs
Fair pricing with no surprises
WHAT ARCEON DOES THE BEST
Delivers strategic, high-impact digital solutions

Pays attention to every detail and goes beyond expectations
Stays agile, proactive, and solution-oriented
Continuously learns and improves to stay ahead
ARCEON
The perfect balance of quality, collaboration, and value.
Offer a wide range of services under one roof
Have established reputation and case studies
Maintain large teams and resources
Invest heavily in marketing and visibility
May offer lower prices or discounts to attract clients
Have longer operational history in the market
WHAT COMPETITOR BRANDS DO THE BEST

Who We Work With.

Startups

Building something new and need it to look and work professionally from day one.

Personal Brands

Individuals who take their online identity seriously and want it done right.

Entrepreneurs

People with big ideas who need a studio that thinks strategically.

Small Businesses

Established but need a stronger digital presence and better user experience.

Content Creators

Creators who need professional visual content that stands out.

Brands That Value Quality

Clients who understand good design is an investment not an expense.

The right clients. The right work.

We Say No To This.

We don’t take on work without a brief.

We don’t promise overnight results.

We don’t compromise quality for speed.

We don’t work without a proper process.

We don’t do free work or spec work.

We don’t overpromise and underdeliver.

Boundaries build better work.

How We Design.

Structure First

Every layout starts with a grid.
Not guesswork.

Purpose Driven

Every element has a reason to exist.

Less But Better

Remove everything that doesn’t serve the goal.

Clarity Over Complexity

If it needs explaining it needs simplifying.

User First

We design for the person using it. Not for trends.

Consistency Always

Every detail must align with the whole.

Good design is invisible. Bad design is obvious.

The Arceon Mark.

The Arceon logo is a wordmark.

Clean. Minimal. Purposeful.

The custom O represents the core —

the origin point of every project.

The mark is built on precision.

Every proportion is intentional.

Every decision is deliberate.

One mark. One standard.

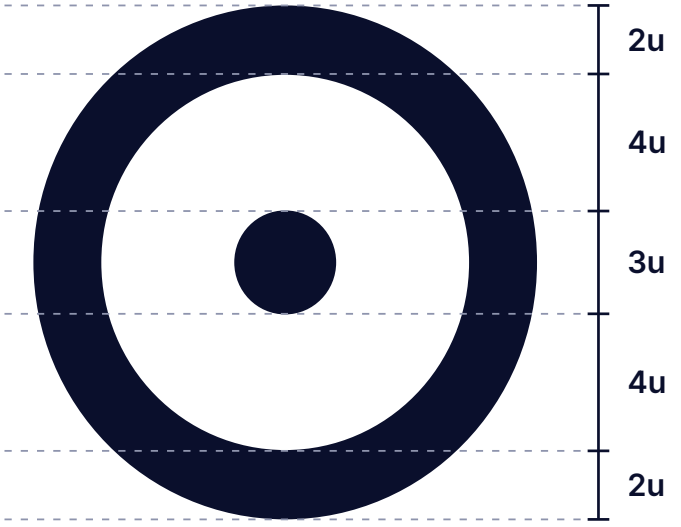

How It Is Built.

Black letters, one navy O. The O is the only colour in the logo, so it is where the eye lands.

The O is built on a 15-unit grid: ring 2, space 4, dot 3, space 4, ring 2.

It stands 1.4% above the cap height and below the baseline, so it looks level with the letters beside it.

15u tall · u = height of the O ÷ 15

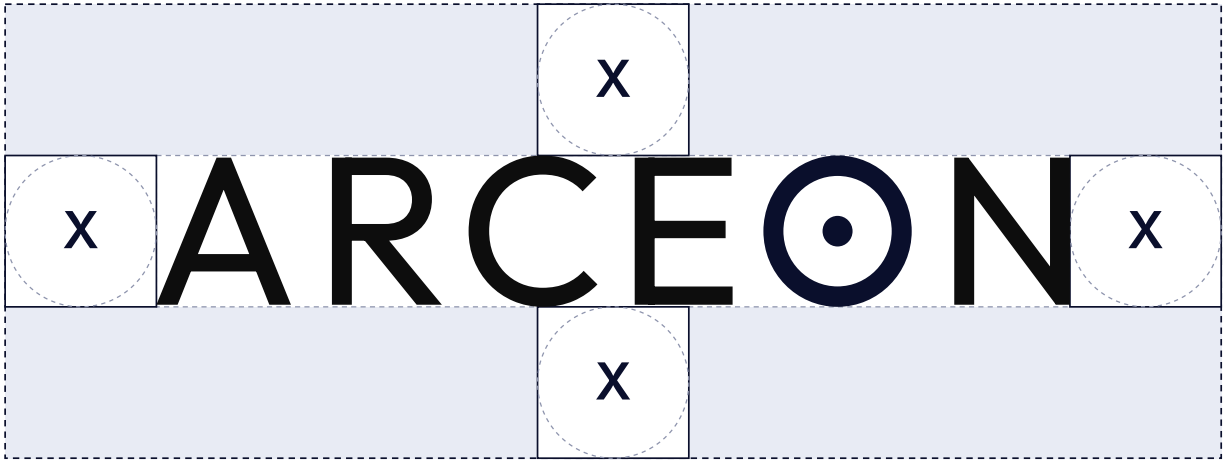

One mark. One standard.

Give It Room.

Always keep clear space around the Arceon logo.

The clear space is X on every side. X is the height of the O.

Nothing enters this zone: no text, no edges, no other logos.

X (measuring unit)	**Height of the O = 1 logo height**
Minimum clear space	**1X on all sides**
Logo 430 pt wide (the guidelines master)	**X = 71 pt**
Logo 120 px wide (screen minimum)	**X = 20 px**
Logo 30 mm wide (print minimum)	**X = 5 mm**

Protected space protects the brand.

All Approved Versions.

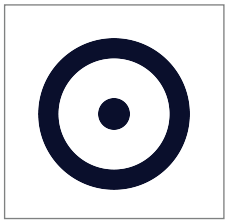

Primary — Dark

Primary — Light

Primary Icon — Dark

Primary Icon — Light

Only these four versions are approved.

No other color combinations are permitted.

Use the right version. Every time.

How Small Can It Go.

Never reproduce the wordmark smaller than 30mm in print.

Never reproduce the wordmark smaller than 120px in digital.

Below these sizes use the icon mark only.

Full size

Minimum print size — 30mm width

Minimum digital size — 120px width

Size affects legibility. Respect the limits.

Where It Lives.

The logo works on white, navy, and black.

It does not work on complex backgrounds.

It does not work on busy photographs.

It does not work on low contrast surfaces.

Approved ✓

Approved ✓

Approved ✓

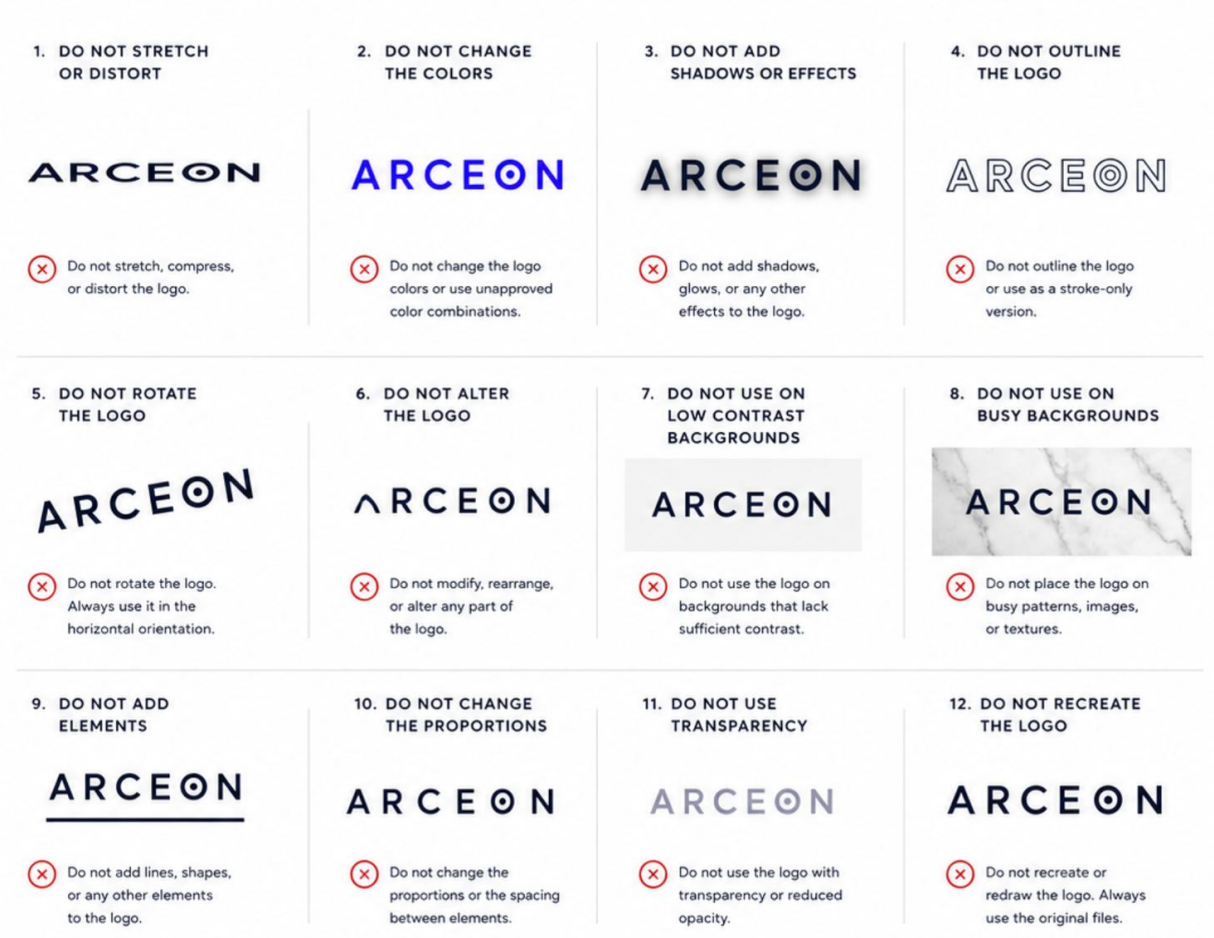

Approved ✓

Contrast protects clarity.

Never Do This.

To maintain the integrity and consistency of the ARCEON brand, the logo must always be used correctly. Do not alter, distort, or recreate the logo in any way.

Always use the approved logo files provided.

The mark is protected. Treat it that way.

The Standalone Mark.

When the wordmark is too small

or the space is limited —

use the icon mark.

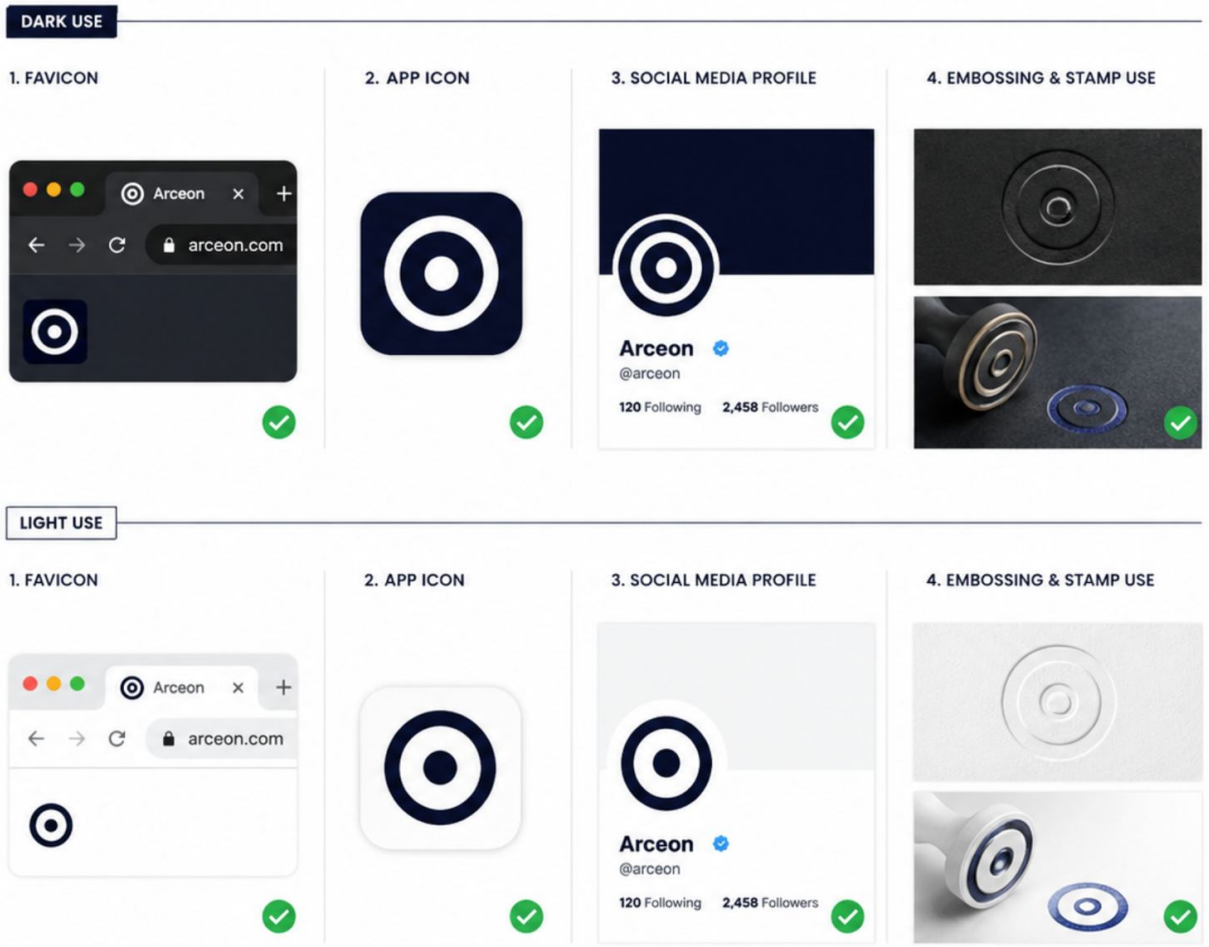

Approved uses:

Favicon

App icon

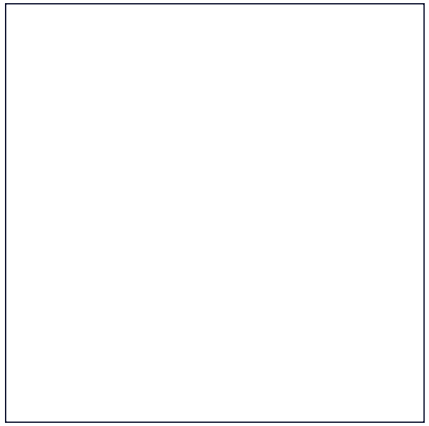

Social media profile

Embossing and stamp use

Small space. Full identity.

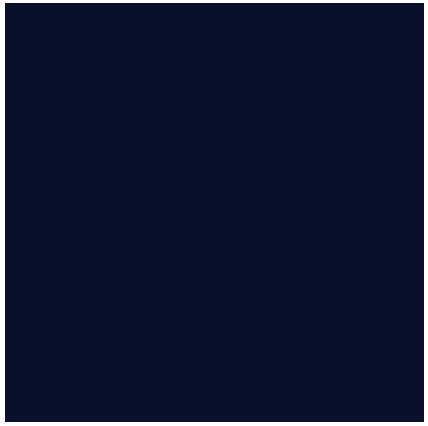

Our Colors.

White (#FFFFFF)- Primary Background

Black(#0D0D0D)-Primary Text

Deep Navy(#0A0F2C)- Accent / Dark Page

Three colors. One identity.

Our Type System.

Neue Montreal

The quick brown fox jumps over the lazy dog

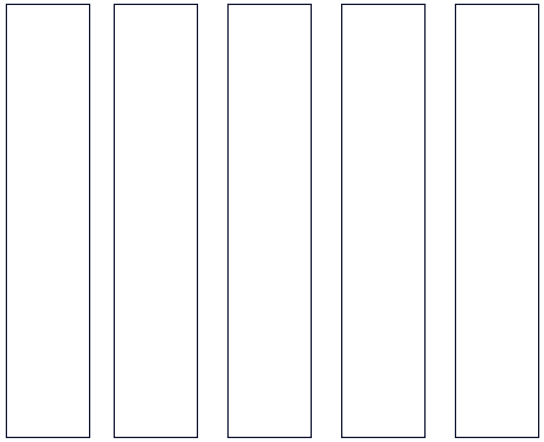

Outfit

The quick brown fox jumps over the lazy dog

Two typefaces. Complete system.

What Builds the Brand.

The Grid

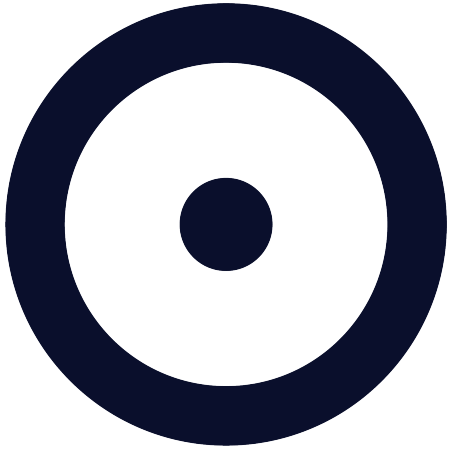

Structure is the foundation of every layout.

The Line

One line. Used consistently. Everywhere.

The Mark

The origin mark. The brand signature.

Simple elements. Consistent application.

How Arceon Looks.

Clean grids. Strong typography.
Intentional white space.
No unnecessary decoration.

Every visual element serves a purpose.
High contrast. Minimal color.
Maximum clarity.

Structure is visible.
Layouts feel considered.
Nothing feels accidental.

Visual discipline. Always.

How We Capture.

Clean backgrounds. Subject in focus.

No clutter. No noise.

Natural lighting preferred.

High contrast when needed.

Never over-edited.

Video — smooth and purposeful.

Every frame has a reason.

No jump cuts without intention.

Visuals that communicate. Not just decorate.

Images are Ai Genrated

We Design for Humans.

UX before UI. Always.

Understand the user before designing the interface.

Every screen has a job.

We make sure it does that job well.

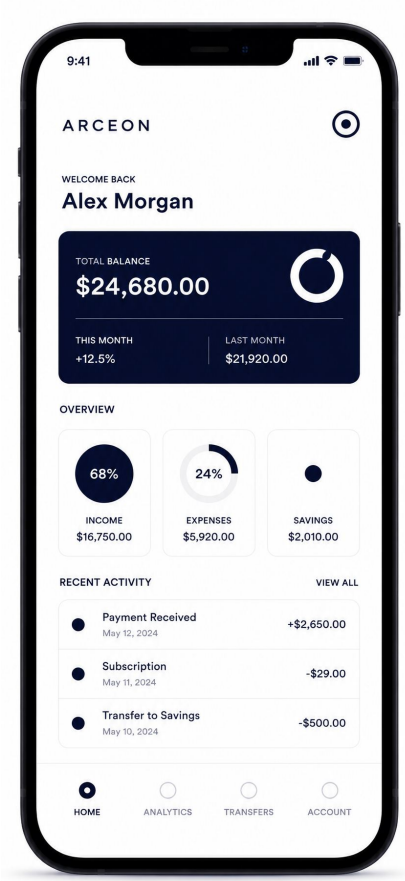

Navigation should feel obvious.

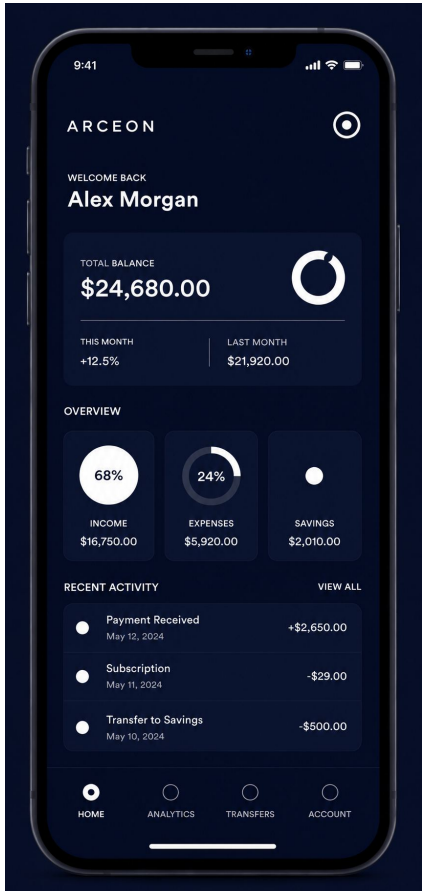

If a user gets confused we have failed.

We don’t design for portfolios.

We design for real people with real tasks.

Interfaces that work. Experiences that last.

Images are Ai Genrated

We Work Smarter.

AI is a tool. Not a replacement.
We use it to work faster and think deeper.

Research. Ideation. Iteration.
AI accelerates every stage.

But every decision is still human.
Every output is still reviewed.
Every result is still quality checked.

We use AI to remove friction.
Not to remove responsibility.

Technology in service of quality.

Notion

The right tools. In the right hands.

How We Work.

01 — Discovery

We start by understanding the problem. Brief. Goals. Audience. Context.

02 — Strategy

We define the approach. Structure. Direction. Before any design begins.

03 — Design

We build. Iterate. Refine. Every decision is intentional.

04 — Review

We check everything. Internal quality check before client sees anything.

05 — Delivery

Clean files. Proper handoff. Everything documented and organized.

06 — Support

We don’t disappear after delivery. We stay available.

Process is what separates good work from great work.

How We Show Up Every Day.

We treat every project like it matters.
Because it does.

We communicate before problems grow.
Not after.

We don’t wait to be asked.
We flag issues early.

We finish what we start.
No half-done work leaves this studio.

We review before we send.
Every time. No exceptions.

Technology in service of quality.

What Leaves This Studio.

Every file is organized and named properly.

Every design is checked at 100% zoom.

Every layout is tested on real screen sizes.

Every copy is proofread before delivery.

Every export is in the correct format.

If it doesn’t meet the standard.
It doesn’t go out.

Quality is not a feature. It is the baseline.

How It Feels to Work With Us.

First Contact

Clear. No confusion. We respond properly and ask the right questions.

Briefing

Structured. We guide the client through the process. They feel in control.

During Work

Transparent. Regular updates. No surprises. Client always knows what is happening.

Review Stage

Comfortable. Feedback is welcomed. Changes are handled professionally.

Delivery

Confident. Clean handoff. Everything organized. Client feels satisfied.

After Delivery

Supported. We stay available. Long term relationship over one time transaction.

Every touchpoint matters. Every interaction counts.

How Arceon Sounds.

We Are

Clear not clever.

Direct not rude.

Confident not arrogant.

Human not corporate.

Professional not stiff.

Simple not dumbed down.

We Are Not

Salesy or pushy.

Overly formal or cold.

Trendy or trying too hard.

Vague or uncommitted.

Loud or aggressive.

Generic or forgettable

Example (In Practice)

Instead of:

“We leverage synergistic solutions.”

We say:

“We solve problems properly.”

Synergy

Why It Matters

Every word we use reflects who we are.

Cheap language builds cheap perception.

Strong vocabulary builds strong brand trust.

We choose words that match our standard.

Language is design. Choose words carefully.

Design with purpose.

Every decision. Every pixel. Every project.

This is Arceon.

Tone of Marketing

No hard selling.

No fake urgency.

No discount culture.

We let the work speak.

We educate and demonstrate.

We build trust over time.

Marketing that reflects the brand. Always.

Keeping Arceon Consistent.

Visual Consistency

Same color palette everywhere.

Same typography always.

Same grid structure.

Same spacing rules.

Never mix fonts.

Never use off-brand colors.

Communication Consistency

Same tone in every message.

Same vocabulary always.

Same level of professionalism.

Whether email, social, or proposal.

Every touchpoint reflects the brand.

Delivery Consistency

Same file organization.

Same naming conventions.

Same handoff process.

Every client gets the same standard.

The brand lives in the details.

Consistency is not restriction. It is identity.

The Rules.

Do’s

Always follow the grid.

Always use brand colors only.

Always use approved typography.

Always maintain proper spacing.

Always communicate clearly.

Always deliver organized files.

Always follow the process.

Always represent the brand professionally.

Don’ts

Never use off-brand colors.

Never mix typefaces randomly.

Never crowd a layout.

Never skip the brief stage.

Never overpromise to clients.

Never send unreviewed work.

Never break the grid without reason.

Never compromise the standard.

Consistency is not restriction. It is identity.

This is how we work.
This is who we are.

Arceon is not just a studio.

It is a standard.

Every project. Every client.

Every time.

Design with purpose. Always.
